

GALAXY BLINDS

Covering the windows of Australia

GALAXY cellular pleated shades, most efficient in heat & light control

GALAXY cellular pleated blinds provide gently filtered light without sacrificing your privacy.

Available in translucent polyester fabric or metalised blackout fabric, GALAXY is efficient in blocking out the light, heat & cold.

The distinctive honeycomb pleat creates air pockets which act as insulators, reducing noise while keeping your home warm in winter and cool in summer.

The white reflective backing reflects external solar heat,

aiding the insulation process. GALAXY is the revolutionary blind that will reduce energy bills.

Select from a large range of fashion colours in light weight, 100% polyester fabric which is anti-static and repels dust and dirt.

A tensioning device is installed with all chain controls to enhance your child's safety.

19mm Cellular Pleat

Top Down/Bottom Up option

Cordless

Care Instructions: Dust with a feather duster or vacuum using brush attachment. Spot clean when necessary with warm soapy water or a damp cloth. Avoid vigorous rubbing and never use solvents.
