

Roman Blind

Add the designer touch to any room with the soft fabric folds of ROMAN BLINDS. ROMANS provide a contemporary look and feel with a large range of translucent, light filtering fabrics in fashionable tones and textures and block out fabrics for greater light and privacy control. Choose from BUNGALOW style with extruded "aluminium battens" for that traditional ROMAN look, or feature stylish HOMESTEAD design with "timber battens" in woodgrain or painted finishes. Operating options include the traditional corded system with "cord lock" or a continuous "chain drive" system which removes the cords. A tensioning device is installed with all ROMANS to enhance your child's safety.

Available Sizes

Width:

Maximum width 2400mm with timber battens
Maximum width 2950 mm with aluminium battens

Drop:

Maximum drop 3100mm

Warranty:

6 square metres
